

Braided Leather Belt

This belt is a classic, casual accessory defined by its woven texture and rich color.

- **Style and Material:** It is a **Braided Leather Belt**, made from narrow strips of leather intricately woven together to form the main body. This woven style allows for flexible sizing, as the buckle can fasten through any gap in the braiding.
- **Color:** The leather is a rich, warm **brown** color, suggesting a natural or slightly distressed finish.
- **Buckle and Details:** It features a simple, rectangular **metal buckle** in a gold or brass tone and a matching leather loop to secure the end.
- **Aesthetic:** The braided design gives the belt a textured, relaxed, and slightly rustic aesthetic, making it an excellent pairing for casual trousers, chinos, or denim.
