

Pleated Belted Midi Skirt

This skirt is a sophisticated, versatile piece characterized by its **fluid movement** and **classic monochrome pattern**.

- **Design & Fit:** It is a **Midi Skirt**, meaning it falls to around mid-calf length. It features **all-over knife pleats**, which are tightly folded and run vertically down the entire length of the skirt, creating a soft, voluminous drape and excellent movement.
- **Color & Pattern:** The skirt has a subtle **two-tone pattern**, appearing as a very fine black-and-white (or dark gray) houndstooth or check, which gives the overall impression of a textured, medium gray color.
- **Waistline:** The skirt is defined by a distinct **wide, black waistband** that cinches the waist.
- **Belt Detail:** It comes with a matching **wide, black leather or faux-leather belt** with a substantial buckle, which is worn over the waistband to complete the look and define the silhouette.
- **Aesthetic:** The combination of the classic pleats, monochrome color, and belt makes the skirt a polished, smart-casual or professional piece.
